

Tagungsankündigung: 4. Europäische Veränderlichen-Tagung

Dietmar Bannuscher und Josch Hamsch

Die nunmehr vierte Europäische Veränderlichen-Tagung findet 2019 in Belgien statt. Nach Groningen (Niederlande), Helsinki (Finnland) und Hamburg (Deutschland durch die BAV) treffen sich Amateure und Profis der Veränderlichenbeobachtung in der öffentlichen Sternwarte MIRA zu Grimbergen nahe Brüssel (Belgien).

Regel Austausch, Vorträge und gemeinsame Projekte stehen bei dem Meeting im Vordergrund, Kennen lernen, Wiedersehen feiern und Kontakte knüpfen inbegriffen.

4th European Variable Star meeting (EVS)

Public Observatory MIRA, Grimbergen, Belgium

September 14 - 15 2019

Meeting Rationale

To foster collaboration between the different European variable star organisations and improve Pro-Am collaborations. Started in 2010 in Groningen (NL), 2013 in Helsinki (FI) and 2016 in Hamburg (DE), the 4th EVS meeting will be organized by the working group variable stars (WGVAR), part of the Vereniging voor Sterrenkunde (VVS, Flemish astronomical organization). It will be held at the Public Observatory MIRA in Grimbergen close to Brussels, Belgium.

Science Programme

The program will consist of invited speakers and contributions from amateur astronomers and professionals alike.

A poster session could also be envisaged depending on the number of contributions.

Invited speakers: B. Gaensicke, C. Knigge, U. Munari, K. Kolenberg

Registration

The conference fee will include refreshments during coffee breaks.

Lunch will be organized in a close by restaurant. Lunch tickets will be available at democratic prices.

A conference dinner is planned on Saturday evening.

More information will be posted at the conference website www.EVS2019.be when available.

Deadline

for registration to the conference will be August 1, 2019

for contributions to the conference program will be June 15, 2019
